An Morning of Ideas and Inspiration on How to Grow as a Christian Leader

Christians lead in a wide variety of contexts – work-places, schools, community groups, charities, homes and churches. Many of those exercising leadership won't see themselves as leaders, but leading they are. This event is a great opportunity to explore how to lead better in any context, and how as churches we can resource better leadership throughout the year in simple and doable ways.

It includes:

- The two most common leadership dilemmas people face.
- Five different ways to develop leaders in your church.
- Seven top tips for developing as a leader.

Bring a car load (or two) of people. It is equally applicable to existing or emerging leaders, confident or reluctant leaders. They will learn and laugh, be equipped and inspired, and have practical ways to continue supporting one another as they leave.
